We beg to inform the public that we have formed a co-partnership for the purpose of transacting a General Land Business. Parties wishing to dispose of their Lands will do well to communicate with us, giving full description, price and terms. We will advertise extensively all lands that are placed in our hands for sale.

California Cuttings.

SANTA BARBARA, CAL., SEP. 17, '90.
DEAR INTERIOR:—Santa Barbara can boast of one of the finest streets in the United States, but that is the only one it has worthy of the name. State street is something like two miles in length and of a uniform width of 60 feet, not including the sidewalks, which are 20 feet more. It is made of bituminous rock and while it is as smooth and pretty as Pennsylvania Avenue, in Washington, it is really better, not being so slick, and seeming to possess a certain degree of elasticity. Nearly all of the business of the town is done on this thoroughfare. The fifth is swept off at night several times a week and hauled away. It is the delight of bicyclists and lots of them take advantage of its smoothness. This splendid improvement was made during the boom at a cost of \$160,000.

The beautiful pampas plumes are just beginning to bloom out, and they present a right pretty sight waving in the gentle breezes. They are raised here considerably for profit, and considering the fact that the grass grows on marshy and almost worthless land, without any cultivation, and the plumes are so easily prepared for market, there must be money in them, when, with a little coloring, they sell in the East at 12 to 15 cents each. The natural color of the plumes is cream-white, and 40 to 50 may be gathered from a large tuft of the grass. They make a beautiful ornament for the mantle.

The present Irish potato crop is a large one, and it comes in good place, too, as there is an almost entire failure everywhere else. They are of fine quality and are bringing a good price. Farmers here can raise another crop this year, and, if they are sensible, will certainly do it. Potatoes will command almost any price next winter.

The weather has been tolerably pleasant, with the exception of three or four days, which have been disagreeably warm. That cool breeze that Californians talk so much about don't always materialize, even on the seashore, at the times when it is most needed. I am not favorably impressed with the heated term in this State, altho' I'd been led to believe it to be the pleasantest time to spend here. You can't always sometimes believe everything you hear.

Thanks to that scholarly gentleman, Mr. John Blain, and to your Crab Orchard correspondent, the best of the Interior has ever had, for undeserved, but appreciated compliments. I fear that my letters now will be disappointing to them and others, as this is not the time of year to write up Southern California. With the exception of the orchards, the area of which is very small comparatively, the country has a dead, dull, dry, dusty appearance. Kentucky at present would be a much more fruitful subject to write upon. In fact, she's hard to beat anyway.

GENERAL NOTES.

Ten years ago the business of California dried fruits was in the hands of a single firm, who made it an adjunct to its regular business.

Eighteen hundred and thirty-six acres of the land of the Lankershim Ranch, near Los Angeles, brought the magnificent sum of \$329,985.

The astronomer on Mt. Wilson, near Pasadena, report a snow-storm on the planet Mars, but fail to say what damage was done to crops.

Senator Leland Stanford's vineyard in Tehama county, comprises 36,000 acres, and the output of wine this year is estimated at 1,500,000 gallons.

The enormous yield of 14 tons of honey from 150 stands of bees is said to have been realized this year by an apiarist near Acton. It sells at 5 cents a pound.

From 10 acres of Sultana (seedless) raisin grapes a Pomona fruit-grower is confident of getting 25 tons of raisins; and has already been offered \$95 a ton for them.

The first entire train-load of green fruit ever shipped from Los Angeles to New York went over the Santa Fe last week. It was composed mostly of grapes.

California editors seem to be in hard luck just now. At Azusa, one was tarred and feathered, and another, at San Francisco, was fined \$500 and sent to jail five days for criticising the decision of a Superior Court judge.

A Los Angeles paper says: "Thousands of tons of dried grapes will go from California to France this year to come back in the shape of wine with grand

and bifalutin names on the labels. When will our people have sense enough to patronize home products?"

Some large yields said to have been made from very small areas: A Tustin man says he sold \$1,102 worth of fruit from three acres planted in apricots, peaches and prunes. From four acres, a fruit-raiser near Long Beach claims to have sold this year \$4,650 worth of oranges, lemons, peaches, nectarines, apples, prunes, figs, walnuts and pears. A man at Cucamonga, having two acres in peaches (184 trees), sold the crop of fruit for \$740. T. R. W.

DANVILLE, BOYLE COUNTY.

—Wickliffe was given 2 years in the penitentiary for the murder of Evan Warren. Isaac Shelby's trial is in progress.

—A Flying Dutchman has pitched its tent here and on a large scale this time. The tent is almost as large as a circus tent, an engine takes the place of horse power and everything is run by steam.

—The journeymen tailors, 25 in number, are all on a strike. They are receiving help from the National Strike Fund and are liable to hold for awhile. The tailoring establishments are having their work done in Cincinnati.

—The citizens of this place can say the 4th of Oct. whether they want local option any longer or not. A vote will be taken then for that purpose. George W. Bain addressed a temperance mass meeting at the court house on the 23d.

—We are glad to note that the managers of Danville Lecture Course have completed their arrangements with some of the most distinguished lecturers this season. This season's programme seems to be even better than last. If it is as good all will be satisfied.

—Several from here attended a baptism at Dix River, on the Danville and Lexington pike, Sunday afternoon. Both the Grove and Fork churches representing the Christian and Baptist baptized some of their converts. A very successful meeting has just closed at the Grove.

—Since our city council have passed the law prohibiting business of any kind on the Sabbath it makes business better on Saturday and Saturday night. One grocer said he used to make more money on Sunday than any other day. We hope the law will be enforced to a letter.

—All are well pleased with the new pastor, Rev. W. E. Arnold, of the Methodist church, who will assist Rev. Pearce during the next year. It is their intention to branch out into the country and perhaps organize more churches in the county as the church only has one other organization besides here and that is Perryville.

—Dr. E. B. Johns and wife have arrived and are stopping at present with Rev. E. H. Pearce. Mr. T. F. Durham, one of our popular grocers, is spending this week in Indianapolis, taking in the State fair at that place. Rev. J. Lapsley McKee, of Barbourville, is at his father's, J. L. McKee, on Harrodsburg avenue. Miss Annie Baughman, a most charming young lady of your place, is visiting the Misses Dunn, on Lexington street. Mr. Boyle Nichols, who is located at Richmond now, is here to visit homefolks and his lady love.

—People living in the country scarcely realize how much pleasure it affords those living in town, who have been cooped up all week, to get out in the country and spend the day. Such a pleasure was afforded your scribe on last Sunday. After attending preaching at the Grove church, in Garrard, quite a number of young people were entertained at the elegant home of Mr. and Mrs. Dave Dunn. The dinner was gotten up and presided over by Mrs. Dunn and her daughter, Miss Florence Jenkins. The dinner consisted of good things too numerous to mention and the manner in which it was cooked made the food more delicious. I never felt so much like putting on "side-boards" before.

Dr. Carpenter asks us to say that the Rhinological Association will meet on the 6th, 7th and 8th, and the Mississippi Valley Medical Society on the 8th, 9th and 10th of Oct., in Louisville. Physicians and their wives in attendance will get reduced rates and should secure certificate when ticket is purchased, to be signed by the secretary of the latter association.

—Mr. Watterson will address the Massachusetts Reform Club on the tariff and the sectional problem to-day.

MIDDLEBURG, CASEY COUNTY.

—The prisoners at Liberty made their escape Monday night by cutting through the roof.

—There is some talk of a telephone line being established between here and Hustonville.

—Quite a crowd of young ladies and gentlemen made a pleasant tour to Chestnut Park Saturday.

—Hugh Cunningham died at his home here Tuesday morning. He was a good neighbor and the town will suffer his loss.

—Several of our farmers have been fattening their hogs for some time for the season. A Gann is visiting his son, W. I. Gann. E. S. Fisher sold the champion mule colt for \$125 to J. W. Whipp.

—B. K. Swope went to Lancaster to attend the bedside of his mother. John Goode, of McKinney, was in town Monday. R. C. Minton, of Danville, was here Sunday. Taylor Durham had his leg broken by a mule kicking it.

—Our little village was shocked to its utmost capacity on last Tuesday, by receiving the news that a couple from here were bound up in the holy bonds of matrimony in the old State of Tennessee. It seems that on last Monday Mr. I. S. Wesley and Miss Clyde Durham left here to visit Miss Lou Cotton, of Danville, a friend of theirs. To pull the wool over the old folks' eyes they boarded the train at Yosemite as the nearest route to Danville. When they arrived at Kingsville they changed cars and there waited nervously and impatiently until the train arrived going South. Then they boarded it and pursued their journey south to Winfield, Tenn., where they were married. Both parties are of high standing. Your reporter wishes them a long and happy life.

MATRIMONIAL MATTERS.

—Miss Rosa Maize and W. C. Kelley, of Louisville, were married Wednesday.

—Nathan Singleton, a widower of 54, and Miss Mary Eoff, 29, were married at Mr. W. G. Reynolds, near Waynesburg, yesterday.

—Sophie France, aged 69, has sued Solomon Oviatt, same age, at Akron, O., for \$2,000 for kissing and hugging her against her will.

—James W. Sweeney, 21 years, and Miss Burnetta Singleton, sweet 16, were married at the bride's father's, near Crab Orchard, Thursday.

—An old fool at Henderson advertised for a wife in a city paper and got one from Chicago. She lived with him three days, bamboozled him out of \$400 and lit out. A suit for divorce has been entered.

—William G. Short and Miss Sarah McKenzie, of 16 summers, were married yesterday at Mr. Harvey Floyd's, in the Waynesburg precinct. Mr. Floyd raised the young lady and came over with Mr. Short to get the necessary papers from the county clerk.

—Two marriages here with widowers as principals have been talked of this week, but they have not materialized yet. As all the parties are old enough and smart enough to take care of themselves, the public needn't give itself any concern about the matter.

Adam Forepaugh, Jr., Drives 40 Thoroughbred Horses at One Time.

The 40-horse act of Adam Forepaugh, Jr., which is seen at every performance of the Forepaugh and Wild West Combined which exhibits at Lexington, Friday, Oct. 3, and Danville, Saturday, Oct. 4, is said to be the most thrilling performance ever seen under canvas or anywhere else. The idea of one man driving 40 horses at one time is sufficient to excite wonder, but when the driver is standing erect upon the two wheel horses and the others, stretched out in a line reaching nearly 100 yards, and rushing around the great quarter-mile hippodrome track at headlong speed, the effect is simply startling. No single act produces so much enthusiasm, and in their excitement the people involuntarily rise out of their chairs, swing their hats and vociferously cheer the daring driver. The training of these 40 horses was entirely the work of Adam Forepaugh, Jr., who has introduced a number of other trained animal novelties this season. Among others are his \$50,000 troupe of trained bronchos; his great herd of quadrille dancing elephants; "Blondin," a pony that walks a high rope; the trapeze horse "Eclipse," and a troupe of somersault dogs; besides the triple circus and menagerie, and the noted Wild West combination, with scores of scouts, cowboys and Indians.

CHURCH AFFAIRS.

—Churches and other untaxed property in Kentucky are estimated at \$18,000,935.

—Remember that Rev. W. Y. Sheppard will preach in the College chapel Sunday night.

—Rev. J. R. Peeples has so far recovered from his paralytic stroke as to resume pastoral work.

—Elder J. G. Livingston writes that he and Elder J. L. Allen are engaged in a meeting of considerable interest at Kingsville.

—At Albany, N. Y., Sunday, the pastor of the Presbyterian church, Rev. G. T. Caine, fell dead in the midst of his discourse of heart disease.

—The record shows that the Methodists built during the year just closed an average of three churches in the U. S. for every day of the year.

—Rev. H. H. Sneed, rector of the Episcopal church at Mt. Sterling, has resigned to take charge of a church in Middleboro.

—An entire family—father, mother, son and two daughters—united with the Maysville Christian church Sunday morning and were baptized that night.

—The Methodist Conference at Bowling Green refused to pass one of its young preachers because he had made an ass of himself trying to imitate Sam Jones.

—Elder Yancey's meeting, which closed at Cynthia last week, was remarkable, in that he, the pastor, conducted it alone for 4 weeks, resulting in 68 additions.—Craddock.

—A protracted meeting held at Republican Baptist church by Rev. P. Blake assisted by Rev. L. H. Salin, the converted Jew, closed on Thursday with 13 additions.—Richmond Climax.

—During fall week the ladies of Rev. R. B. Mahony's church, at Columbia, Tenn., served dinners for the benefit of the church and realized about \$500. We learn that the church is in splendid condition, thoroughly organized and active.

—The latest sensation in church circles is the announcement that Rev. Fred D. Hale, who has been so long and popularly identified with the 22d and Walnut street Baptist church, has accepted a call to the McFerran Memorial church.—Louisville Times.

—Rev. John Bell Gibson has tendered his resignation as pastor of the Christian church, to take effect at the end of the year. It is understood that the church is almost unanimous for retaining him, but there are a few who think the services of a pastor ought to be dispensed with till the little church debt of \$300 or \$400 is paid. This too in a church that is worth more than a million of dollars!

—Elder Shouse has resigned as pastor of the Broadway Christian church, Lexington, to become general solicitor for Kentucky University. He will try to raise \$100,000 of the \$200,000 endowment fund to be added to the Institution. The leader says he has made a faithful pastor. The congregation of the church in the nine years during which he has had charge has increased from 240 to 810 souls. He has almost completed raising \$20,000 for the new church, to be built on the site of the old one.

—E. H. Taylor, Jr., mayor of Frankfort, is paralyzed on one entire side and his life is despaired of.

—Many people were drowned and thousands driven from their homes by the recent floods in China.

—Jim Wall, one of the men who killed John Rose from ambush, has been sentenced for life by the Powell court.

—The Supreme Court of Vermont is asked to decide whether a man may recover from his best girl, who has jilted him, presents that he made to her when they were engaged.

—The Sovereign Lodge of Odd Fellows at Topeka, Kas., elected Ex-Gov. John C. Underwood Lt. General and Generalissimo and J. W. Venable, of Kentucky, Grand Chieftain.

—The crank resolution proposing an amendment to the constitution in relation to the manufacture, importation, exportation, transportation and sale of alcoholic liquors was taken up in the Senate Monday, but was laid aside without action.

—Dr. Clardy, the nestor of the Grange and leader among the farmers of Western Kentucky, in a letter expresses the belief that the attempt to start a third party among the Wheelers, will, if successful, break up that order. This is the view also of Mr. Erwin, State president of the Wheelers.

DEMOCRATIC TICKET.

For Congress.

JAMES B. MCCREARY.

We always have our favorite even in a dog fight or a republican row, but in matters of politics we try not to let personal preferences outweigh more important considerations. As between the aspirants for congressional honors in the 11th we have, of course, a decided feeling in favor of a certain man, who is in every way worthy of honor from his party, but at the same time we are satisfied that the best thing for the democrats that the republicans can do in their convention, which meets at London on the 30th, is to nominate Mr. Frank Finley, of Whitley. He is not the peer in any respect of several of the other aspirants and his course in Congress and out has done more to thoroughly disgust the decent element of his party than anything we know of. With him as the nominee the democrats would have a fighting chance even in the solid republican stronghold of the 11th now, and if he is elected, another term of him will make the district very doubtful and debatable ground. On the other hand, should Wilson, Boreing or Adams be chosen, each has ability enough to make a good representative and tact sufficient to unite and solidify the warring factions of his party and make the district even more overwhelmingly republican than the last vote shows it to be. It is to be hoped therefore that neither will be nominated, but that the Hon. Frank Finley may again be made the banner bearer, for it is sure to trail in the dust, if not at the approaching election, at no far distant day.

The Covington Commonwealth likes most of Delegate Miller's proposition for changes in the judiciary, and says it shows much study, with the exception of the part which appertains to levy courts and courts of claims, which it claims is the attempted vitalization of a devalitized scheme. The day of levy courts and courts of claims, says the writer, has gone. They were cumbersome bodies, which practically assigned the districts of each county to the control of the magistrates representing it. The examination and approval of the accounts and claims before the court were controlled, not according to law nor the intent of the law, but according to what might be called a districtatorial courtesy, close kin to legislative courtesy and far more hurtful. The county commission plan is the one to adopt. Kenton county appreciates its features; and ten years have realized its benefits in a comfortable treasury, no floating debt, finances admirably managed, bonded debt insignificant and bonds at a premium; and something to show for every item of expenditure.

A voice comes from Maine recommending our Jim McCreary for speaker of the 52d Congress in the very probable event that the democrats secure a majority of the House of Representatives. The party could go further and fare worse. By temperament, mental, moral and physical, he is admirably fitted to preside over a legislative body, and socially he would be an ideal American speaker, and society has a good deal to do with the selection of our speakers—more than one would think.—Louisville Times. Gov. McCreary is one of the best parliamentarians in the country and the most evenly balanced man in Congress. He would make a fit successor to that other great Kentuckian, whose impartial rulings and exact justice made him the model speaker.

BOYLE COUNTY is to vote on the question of prohibition Oct. 4th. The act under which the vote will be taken permits the sale of whisky in quantities of 10 gallons and does not interfere with the right of a physician to give prescriptions and a druggist to fill them, provided it is "in good faith." Most any whisky man could vote for such a law. There is very little prohibition in it, except to prohibit the licensing of saloons and getting some revenue out of a traffic that goes on in spite of all laws.

SOME of the republican delegates are making much ado over the question of expunging the slavery clause from our constitution, as if the convention had been called for that purpose alone. There is no use of all this party clap-trap. Slavery has been dead for a mackerel for 25 years and the clause has therefore been a dead letter. A quiet omission of it in the new constitution is all the importance that should have been attached to the subject.

HON. G. A. DENHAM, member of the Democratic State Executive Committee, has called a meeting of the chairmen of the various counties in the 11th Congressional district, to be held at Williamsburg at 8 o'clock p. m. Sep. 29, for the purpose of organizing and to take such action as may be necessary to provide for holding a convention to nominate a candidate for Congress.

Gov. Buckner has reappointed the old members of the State Board of Equalization.

WHEN we purchased the INTERIOR JOURNAL 16 years ago, it was a weekly with one-half of it printed in Cincinnati, and known as a "patent outside." This arrangement saves a good deal of labor and does very well for a paper that is not able to do its own type setting and printing, and besides the "patents" are usually well gotten up. We soon felt, however, that we would like to know what was going into our paper, even to the quack advertisements, so we determined as early as practical to stop the patent business. Duplicated matter would frequently appear in the same issue, which was, of course, annoying, but the straw that finally broke the camel's back was an item on the outside beginning as follows: The INTERIOR JOURNAL, published at Stanford, Ky., says: here followed a clipping from the inside. This was more than we could stand and the next issue of the paper was entirely home print. These incidents were recalled by seeing in the boiler plate matter of the Owensboro Inquirer this item: "C. C. Givens has withdrawn from the race for Congress in the 2d Kentucky district." Mr. Givens is editor of the paper and made the same announcement in it over his own signature more than a month ago. Plate matter is a mighty handy thing in case of a rush, but like the patent outside, it will often make a paper appear ridiculous if it is shoved in the forms without being edited or looked after by anyone but the devil.

SO FAR as heard from things are very much mixed in the bloody 11th. There are 201 votes in the 17 counties and it will take 101 to nominate. None of the six candidates can touch those figures with a 40 foot pole. Wilson heads the list with Bell 9, Clay 14, Knox 14, Owensley 7, total 44; Finley has Metcalf 10, Russell 8, Wayne 11, with one delegation hostile to him from his own county; Boreing has Laurel 14 and half of Harlan 4, though there was a bolt and another convention there. He has also second instructions in Clay. Col. Adams has only the vote of Casey, 14, with a delegation said to be dead against Boss Finley. Nell has Adair 14, Clinton 9, which gives him 23. Trimble claims Pulaski's 29 votes, though there is a contesting delegation. Harlan has two delegations, Leslie none, the convention having broken up in a row. Perry has two sets, one for Finley and the other for Wilson. Wilson's friends are betting on him, but Finley's claim that he will get there in great shape. Let us hope that he will.

REED succeeded in getting a quorum of his mob Tuesday and accomplishing the infamous rape of seats from two democrats, fairly elected, and giving them to a couple of negroes, Mr. Venable, of Virginia, having to give away to Langston and Elliott, of South Carolina, to Miller. This about ends the contests and the bulldozers can now turn their attention to some other devilment. The seating of the negroes takes about \$10,000 each from the treasury and puts it into their pockets. The sitting members are, of course, allowed their salaries to date.

LOUISVILLE is making grand preparations for the Fall Commercial Celebration, to occur Oct. 1 and 2. The magnificent pageants and Carnival of the Satellites of Mercury will be given on a grander scale than ever and the Carnival reception, to which we acknowledge invitation, and which will be held in the Auditorium on the night of the 2d, will be a royal affair. Cheap rates on all the railroads will no doubt fill the city with people during the Celebration.

KENNEDY's attack on Quay will not appear as a matter of congressional record. The House voted that the speech is unparliamentary and its delivery a breach of decorum. It has been given to the country, all the same, that one republican has called another a thief and a Judas Iscariot and he has not resented it.

A SPLENDID.....

WASHINGTON CO. STOCK & GRAIN FARM

AT PRIVATE SALE.

To close a partnership, we offer at private sale our Farm at

Nearly Five Hundred Acres.

Near Mooresville, Washington county.

This Farm is situated on the turnpike leading from Mooresville to Chapin and is about 10 miles from Springfield, 7 miles from Bloomfield, 5 miles from Valley Hill, a depot on the railroad between Bristow and Springfield, and about an hour's run from Louisville. There is on the Farm a good comfortable house of 4 rooms, the main building, a brick, having burned a year or so ago, and all necessary farm buildings, consisting of stables, corn cribs, granary, smoke house, buggy house, poultry house and yard and two large tobacco barns. A good portion of this land is in blue-grass, timothy and clover and has a beautiful supply of never-failing water, well distributed in the different pastures and fields; and the whole is in a good state of cultivation. In short, it is a highly productive Farm, which the crops of grasses, grain and tobacco grown on it yearly attest. It is an incontrovertible fact that Washington county lands have been selling 25 to 30 per cent, cheaper than lands of a like character in any other part of the State, and this has undoubtedly been due to the fact that the county has been without railroad facilities, until the past two years. No county in the State raises finer horses, cattle, blue-grass, grain or tobacco. Our sole reason for offering to sell this farm is to close our partnership, and to a man wanting good land, well located, at a low price and on good terms, we will sell the cheapest farm in Kentucky. No use to go West, and you'll say so, when you see this land. To parties who might want this land we will say that it is susceptible of division and we will sell to suit purchaser. Call on us on the place or address us at Mooresville, Ky. (44-45) A. C. & JOHN TAYLOR.

The Louisville Critic has an article on the failure of the Bourbonville scheme, which is not very complimentary to Gov. Givens or Treasurer Davidson. The paper claims that the project is a flat failure and that an electric light company has succeeded the company for a good many thousands of dollars.

The press and the public are unanimous in praise of Beach & Bowers' Minstrels. The city council has ordered the street committee to go ahead and have the pavements laid from Dr. Owsley's and John Newland's to S. S. Myers', on Danville avenue. The order requires that they be laid outside of the pike's right-of-way. Most of the owners agree to donate the ground if the city will lay the pavements, but Mr. Elmore and J. B. Higgins want considerable damage. The idea now is to build on either side of them and after it is seen how necessary it is to condemn their lands, to have a writ issued.

BEATEN.—To a club so unused to defeat as the INTERIOR JOURNAL, the sting of coming out only second best, as they did at Lancaster Wednesday, was keenly felt indeed. In fact it looked like a "soft snap" for our namesakes even to the ardent admirers and backers of the Lancaster base ball team, and to the I. J. players it seemed a veritable "clinch." The game started off with a score for our boys and when the Lancasters came to bat they made a couple. The I. J. made 2 in the 2d inning, 3 in the 3d and 5 in the 4th, while the home team got "goose eggs" in the 2d and 3d and 1 in the 4th. At this point everything looked favorable for an overwhelming defeat of the Lancasters and our boys, believing the game a one-sided affair, grew careless. Right here the home team got in its work and in the 5th, 6th, 7th and 8th innings ran its score up to 14. The I. J. only made two more scores and were defeated 14 to 13. Ramsey and Wilson did the battering work for our club and while not up to their standard, played a fairly good game. The rest of the boys played a miserable game and earned the defeat they received. Sam Fox, of Lancaster, umpired, and while his decisions were not all satisfactory, he no doubt did as well as his knowledge of the game allowed. The above teams will lock horns again at Lancaster this afternoon, when we trust our namesakes will be more successful.

One of the members of our firm is in the market now and next week our stock will be complete in every department. Severance & Son.

THE K. C. will sell round-trip tickets to the Latonia cars at very low rates, beginning to-morrow and closing Oct. 18, good for return to the 20th.

NOTICE.—Dr. J. F. Peyton and I. M. Bruce, committee, will receive bids till Saturday, Sept. 27, for lighting and cleaning the street lamps by the month.

THE trial of Isaac Shelby, Jr., for the murder of George Lingenfelt, at Junction City, last Christmas, commenced at Danville Monday. There was some trouble in getting a jury, but it was secured by Tuesday and by Wednesday afternoon all the testimony was in and the speaking commenced. The prosecution admits that it failed to make out as strong a case as before. The jury had not agreed at 4 o'clock yesterday and it is more than likely it has hung.

WHEN Miss Kate Hail returned the other day from a protracted visit to Somerset, she made the startling discovery that a fastidious hen had taken advantage of her absence and deposited a nest of eggs in her silver card basket, which was occupying its accustomed place on the centre table in her parlor. The surroundings showed that the hen meant business and had the young lady protracted her visit a little longer, a nest of tiny specimens of the feathered tribe would have greeted her on her return.

ACQUITTED.—Anderson Gilbert, a negro, had Dr. Clifton Fowler arrested for striking him on the head with a stick. It appears that they had some trouble over a rock and attempted to throw at the doctor, at the same time reaching for his knife. At this juncture the doctor tapped him on the head with a stick, which caused him to lose interest in subliminal affairs for an instant or so. There were two trials of the case, the first resulting in a hung jury, the other held yesterday morning in an acquittal.

THE rumor that Alex Walker, the colored man, who was struck by a club thrown from Capt. Middleton's construction train, was dead, grew out of the fact that he had a severe sinking spell which apparently terminated in death. He did not die, though he is still in a critical condition. It has developed that there were three men on the car, from which the club was thrown. Tom Carter, who is in jail for it, Clarence Hooker, who is in Louisville to stand trial for a train collision, and Bob Thompson, who has voluntarily returned to see the matter through. From all we can learn Carter is the man who will have to prove his innocence.

NOT SO BAD AS PAINTED.—Postmaster F. R. Compton, of Milledgeville, and John Reed were in to see us Wednesday to correct some of the statements made about young Gooch, who was shot by the constable's posse. They say he is far from being the bad boy that he is made out; that he did not go inside the church with his pistols on the occasion mentioned, but merely stood on the outside with them and that he did not take young Carson's horse and buggy from him and drive to Hustonville or anywhere else in it. They further say that Gooch avers that he did not snap his pistol at Alcorn and that he can prove the snapped cartridges were in the pistol before he was shot. We give these statements, not wishing to do any one, especially a dying man, the slightest injustice, but the fact that he was at the church at all with pistols and the fact that he beat young Carson in the face while he was held, looks a little bad to say the least.

DEATHS' DOINGS.

—A card from Elder J. G. Livingston informs us of the death of his aged and estimable mother at Kansas City, Mo. She was a devoted member of the Methodist Church and was ever alive to every good word and work. Her age was 79.

—Capt. Thomas Richards received a telegram from Middlesboro yesterday afternoon stating that his wife's brother-in-law, Mr. George R. Beazley, had just died. No cause of his death was given, but it is supposed it was from a kidney trouble of long standing. He was in his 63d year and leaves a wife and one married daughter.

—Reports from the Memphis district say that the cotton crop has been damaged 25 percent. by excessive rains of the past week.

—Elliott, the democrat who was kicked out of Congress to give place to a negro, was re-nominated by his constituents next day. J. O. Pendleton, also kicked out, was re-nominated in the 1st Virginia.

—The defaulting ex-deputy sheriff of Christian county was seen a few days ago in a town in Illinois, and declared that he was going North to visit friends. He is thought to have reached Canada by this time.

—Henry Stagerwald and his wife, of Rittersdorf, Pa., were found dead at their home Monday evening. On a slip of paper was found written: "We die together; gone to meet our children." Mr. and Mrs. Stagerwald were an aged couple and had six children, all of whom died within the past three years.

The problem of "visual telegraphy" is said to have been solved by English inventors. The instrument is known as

the electro-phonoscope. By the use of this instrument the sender of a message from a distant station appears in person before his correspondent, and with a telephone it is possible not only to speak with him, but also see him and watch the expression of his features. The instrument is a perfect complement of the telephone, and probably illustrates what telegraphy is likely to be in the future.

Winchester Court Day.—Six hundred cattle on the market; 22 good feeders, 1,150 lbs., brought 3.45; 21 light, 1,050 lbs., 3.17; 20 plain steers, 1,200 lbs., 3.05; 15 plain steers, 1,000 lbs., 2.4; 20 light plain steers 2.35; 10 light plain steers 2.1. Cattle were off about 15 cents per cwt. from last court. About 300 mule colts on the market. Good horse mule colts brought from \$40 to \$50. Good mares from \$60 to \$70. Small mules were low and not much wanted.

—J. C. Caldwell sold to S. Weil, for Goldsmith & Co., of New York, 273 prime export cattle at 41 cents. The cattle were extra nice ones and weighed about 1,575 pounds each. Chas. T. Black of this county has exchanged his farm of 320 acres, near Herrington, Kansas, to Madison Engleman, of Bozeman, Mont., for 30 broad mares in foal to jacks, 35 geldings and 3 colts. The farm is located in the central portion of Kansas and is near Herrington, a town of 2,500 people, that has two railroads—Missouri Pacific and Chicago and Rock Island. The horses are valued at about \$5,000.—Danville Advocate.

—The McChord-Lewis contest is still on, but the chances are strong that Mr. Lewis will have to yield his seat to his opponent. The law and the evidence all seem to be against him.

—Col. John O. Hodges says that 30 years' intimate contact with public schools has convinced him that whipping is not productive of good, and he wants a clause inserted in the constitution forever forbidding corporal punishment in public schools.

—Judge Beckner recommends that not only shall the truth of a publication be a defense in a criminal prosecution, but if a proper motive is shown the accused shall be entitled to his discharge. He would also empower the legislature to establish a board of arbitration to settle the differences between capital and labor.

—Gov. Buckner offered amendments to provide for general and uniform taxation, with no exemptions, except for property belonging to the government and the State; also for increasing the authority of the governor in making removals from offices for cause, allowing him to succeed himself in office, etc. He also makes it obligatory upon every member of the legislature who is interested in any bill coming before such body to declare the fact before the measure is passed upon. He also provides for a prison commission, to be composed of only three members.

—Gov. Knott is also for radical changes in our judiciary system. His proposition is for a supreme court consisting of one chief and four associate judges, the chief to be appointed by the governor from the State-at-large and the associates to be elected from the State-at-large. Then a circuit and county court and such subordinate courts as may be found necessary. The supreme judges are to serve 12 years, circuit judges 8 years and county judges 6 years, salaries to be fixed by law. The circuit courts are to hold two terms every year and districts as determined by the legislature.

—Gov. Buckner offered amendments to provide for general and uniform taxation, with no exemptions, except for property belonging to the government and the State; also for increasing the authority of the governor in making removals from offices for cause, allowing him to succeed himself in office, etc. He also makes it obligatory upon every member of the legislature who is interested in any bill coming before such body to declare the fact before the measure is passed upon. He also provides for a prison commission, to be composed of only three members.

—Gov. Knott is also for radical changes in our judiciary system. His proposition is for a supreme court consisting of one chief and four associate judges, the chief to be appointed by the governor from the State-at-large and the associates to be elected from the State-at-large. Then a circuit and county court and such subordinate courts as may be found necessary. The supreme judges are to serve 12 years, circuit judges 8 years and county judges 6 years, salaries to be fixed by law. The circuit courts are to hold two terms every year and districts as determined by the legislature.

The growth of woman's work for woman as a missionary agency is very wonderful. It is hardly a quarter of a century ago since the first organization was effected, and yet there are to-day 39 organized women's societies in the different denominations. These enroll about 25,000 auxiliaries and nearly 10,000 children's societies. The former has an estimated membership of 500,000. Since the beginning of their work these organizations have contributed nearly \$10,000,000, and last year alone they gave over \$1,250,000. They support in the foreign field 1,200 missionaries, 2,500 Bible-women, teachers, zenana visitors and other workers. They carry on 2,500 schools of various kinds, boarding, day and village schools, homes and orphanages—either wholly or in part—having in all about 60,000 pupils, mostly girls.

THE GIRL WHO WOOS.—I may as well be frank at once and say I do not like the maid who does the wooing. She is usurping the privileges of her knight, and if I were he I should turn and flee. "But," says Ethelinda, "he needs encouragement!" Perhaps he does. But not too much of it. When you want to give an invalid something to increase his appetite you do not offer to eat for him; instead you offer a dainty bit, a little spice or a little acid, that quickens the taste and makes a great hunger come. Treat your sweetheart in the same way. Let him be conscious that you are pleased with his liking, but do not for a minute take away his prerogative and do the wooing. No man has a true appreciation for good things too easily obtained.

The flush Californians are disposed to turn up their noses at Miss Blythe, who has just become the heiress to an estate of \$4,000,000. The fortune is accounted small potatoes as California heiresses go nowadays. Miss Flood was credited with \$25,000,000 11 years ago, and her property has greatly increased in value in that time. Late she invested \$410,000 in a few feet of land in San Francisco, and two years ago she paid \$1,000,000 for the Flood building. Mrs. Hopkins was worth \$20,000,000 when Mr. Searies married her, and Mrs. Alexander's share of the Crocker estate is more than \$5,000,000. The Misses Sutor will be worth several millions some day and the Misses Fair will be able to sign a check for \$6,000,000 each. Miss Blythe is nowhere beside these daughters of Croesus.

The Harrison administration has been less than 18 months in existence, and it has already earned the contempt and derision of some of the most influential leaders of its own party. The recommendations and suggestions of the president on questions of public policy have been generally treated with supreme indifference; and the party which went into power on the 4th of March, 1889, with supreme control of the executive and legislative branches of the government is now hopelessly demoralized. Blunder after blunder has marked the progress of this unfortunate administration.—Albany Argus.
